I request 20% of the operating revenue from 2001 – 2016 of your company because of your illegal activities and stealing. Reason: Outsourcing fraud and breakins (over 400). This has been done by the bar keeper together with 1 male person with a black jacket and 4 females at the opposite table together with the police and the Austrian courts and the ams. I accuse all persons, that have problems and mentioned my company data and request to bring all into jail now. 2 of the females have massive problems and talked too about their problems. They mentioned too Ing. Sochor and his illegal activities including the illegal activities from the courts. I identified 1 person as direct break in person (male person) together too with the females. They talked too about how my person is killed illegally and are directly involved. I request to bring all persons into jail now. The male person talked too about his corrupt behavior with Switzerland and his illegal activities since 2010 (sitting at the bar and talking with the bar keeper, that is too illegally involved). I request 20% shares on your company according to this penalty now, and outsourcing contracts with this yearly revenue for my company from your company. I request outsourcing contracts with this order volume and investment capital with this amount into my company.
