<p>meiner Buros und auch ausserhalb meines Buros.</p>	<p>stalking, manipulation of my mobiles, my faxes, hacking of my infrasctucture. Trying to kill my person and company in over 10000 cases.</p>
<p>Invention of mobile phones, I mean wearable phones, and the complete telco infrastructure behind. I did invent this before any mobile phone did exist. I did talk to a person and persons about this. This has been stolen by Siemens, Nokia, Samsung, from me. I request a penalty of 50 Trillion EUR per year because of stealing this from me by all states and persons. this includes too the infrastructure behind (satellites / local based emmitters). I accuse all telcos and request a penalty of 50 Trillion per year. I can prove this, and request this penalty.</p> <p>This has been stolen by Nokia, Siemens and all global Telcos. This is a massive penalty.</p> <p>I talked after creation of product designs and material to build this with Benno Helbok too. This has been stolen from me. I knew, that I would make a global revenue of minimal 1 trillion per year (I calculated the revenue of a telco company globally, and calculated this). This has been stolen too from me. Furthermore the mobile frequency stuff is bad. I would have the global biggest telco company. I request this penalty now too.</p> <p>Nokia and Siemens stole me the Mobile Phones development. Furthermore too the infrastructure behind has been stolen from Siemens and Nokia and all Telecom Providers globally.</p> <p>Benno Helbok remembers 2015, when I did talk with him about these products.</p> <p>This has been stolen by companies and the austrian state.</p>

I request a penalty of 60% of the global operating revenue, and 90% of the global market share to produce mobiles during the next 5 years. I request a seat at the Board of your company and 51 % shares on your company, because your company stole this from me.

As the main sales is the mobiles and voip, that has too been stolen by IBM and your companies, including skype,

I request too 51% of the global revenue on these products.

Creation of the Internet infrastructure behind, and the creation of the network infrastructure invented by me and stolen by your company.

This has been stolen 1990 - 1995 from me before any telcos and internet did not exist.

How to get telco and mobile frequencies by states has been stolen too by you from me.
