Google stole my internal company compliants and did use them for google. Google Glasses has been stolen from me. Google itself has been stolen from me. Furthermore the Lenses that Google is making with data is too from me and has been stolen from me by google. The buy strategy to buy Motorola from google comes from me. Google itself comes from me. These 2 students stole my search engine. Google is stealing all my company data and stole everything. The search engine itself comes from me. Involved are Werner Benger (Student Mathematics and Employee at the Math Institute Innsbruck), Michael Perkhofer, Tritthart Michael (Student), Rupprecht Leitner (LATER) - Student, Reinhard Stix (Sysadmin University), Knappe Michael (Student). We worked all at unix workstations of HP at the university of Innsbruck in a great and good environment at the "Pool"

Bill Gates met Michael Perkhofer in the US at a hotel before Google did exist. The search engine is done now by me, and has been stolen by Google and before Google did exist.

This has been done by Bill Gates, Sun and Oracle, that did buy Sun. Bill Gates and Microsoft did steal this together with people from the university from me 1994 - 1996 as already accused by my company.

Google hacked my company infrastructure and stole all my company data including breaking in into my company office too together with companies.

Google stole the acquisition of Motorola from me.

Google stole Google Glass from me.

Google stole my search engine. To create a search engine with a simple edit field and a good ranking and only a button comes too from me, and has been stolen from Google.

This is, how my search engine has been stolen by Google (this was, before the search engine in the USA did exist, and the development has been started in the USA). This has been done by me BEFORE GOOGLE DID EXIST AND BEFORE S.B. and L.P. did start to create this internet search engine. THIS is already
